

Corporate Forensic Report: Urbane Real Estate Pty Ltd

Operational Blueprint and Geographic Mandate

Urbane Real Estate is a privately owned boutique residential real estate brokerage operating in the rapidly growing western residential corridors of Sydney, New South Wales, Australia.¹ Under the corporate registration of URBANE REAL ESTATE PTY LTD, the firm executes a diverse service model encompassing residential property sales, project marketing, off-the-plan development sales, property management, and rental leasing services.² Headquartered at Suite 9, 18 Third Avenue, Blacktown, NSW 2148, the agency is strategically located to capitalize on the demographic and economic expansion of the City of Blacktown municipal area.¹

The establishment of the independent brokerage was driven by a clear geographic and demographic mandate. Greater Western Sydney has experienced significant population growth, characterized by high immigration rates and a major influx of South Asian communities, particularly of Nepalese and Indian descent.¹ The agency's primary mechanism for customer acquisition is its direct bilingual service delivery.¹ Co-director Umang Pokharel is fluent in English, Nepali, and Hindi, enabling the firm to navigate and negotiate transactions within these highly tight-knit migrant networks, which often prefer local, culturally aligned intermediaries.¹ By offering localized expertise alongside native language fluency, the agency has bypassed traditional franchise barriers to establish a profitable market presence in medium-density townhouse and unit developments across the outer West.¹

Corporate Genealogy and the Integrated Business Empire

The operational history of Urbane Real Estate is linked to the localized franchise networks of Western Sydney, specifically the Century 21 brand.⁷ Prior to establishing the independent boutique brand, co-director Bishal Pokhrel operated as a sales director and agent within the franchise "Century 21 Tan Brothers," located at 32 Flushcombe Road, Blacktown.⁷ During late 2022 and early 2023, Pokhrel processed standard residential listings under this banner, establishing a transaction record in suburbs such as Ingleburn and Kingswood.⁹

The strategic decision to break away from the Century 21 network and launch Urbane Real Estate was driven by a desire to capture direct equity, avoid franchise royalty overrides, and build an independent corporate brand.¹ This corporate evolution allowed the directors to transition from commission-earning sales agents to equity-holding corporate principals.⁶

The founders have expanded their footprint beyond simple residential brokerage, constructing a vertically integrated property development and construction empire.¹³ This integration is executed through a separate connected corporate vehicle: **URBANE CONSTRUCTIONS PTY LTD** (ACN 620 908 090 / ABN 89 620 908 090), which has been active since August 13, 2017.¹⁴ This sister entity operates under the registered trading name "URBANE DESIGNER HOMES" (registered on February 12, 2020) and historically held the business name "THE URBANE GROUP".¹³ Also operating from the Blacktown business zone, this company serves as the physical development arm of the empire.¹⁴ Through Urbane Constructions Pty Ltd, the directors acquire land parcels, execute subdivisions, and build residential townhouses and duplexes.¹⁴ These properties are subsequently listed, marketed, sold "off-the-plan," or managed as rental assets through the retail brokerage arm of Urbane Real Estate.² This vertical structure enables the co-owners to capture development margins, builder profits, retail sales commissions, and long-term property management fees within a single, self-sustaining corporate ecosystem.²

Director Profiles and Asset Investigations

The corporate equity and executive control of the business are divided between the two founding directors, both of whom act as the primary rainmakers and operational leaders of the firm.⁶

Umang Pokharel (Director and Selling Agent)

Umang Pokharel is a highly active real estate transactor with over 12 years of property industry experience.¹² His career began at the entry level of property management, providing him with experience in rental administration, trust accounting, and tenancy legislation.¹⁶ He subsequently transitioned into off-the-plan development sales and established residential listings.¹⁶ Over the last 12 months, Pokharel has acted as the primary sales engine of the agency, serving as the lead transacting agent on 76 properties listed on realestate.com.au.¹² His bilingual capability in English, Nepali, and Hindi serves as a major customer acquisition channel, converting South Asian community members into exclusive vendors and buyers.¹

Bishal Pokhrel (Principal and Director)

Bishal Pokhrel also has 12 years of industry experience, specializing in residential sales, project marketing, and development acquisitions.⁶ His career trajectory includes his tenure with Century 21 Tan Brothers, where he developed systematic database marketing and lead generation models.⁷

Pokhrel focus areas include dual-occupancy developments, raw land subdivision sales, and house-and-land packages in Outer Western Sydney growth corridors, including Werrington, Riverstone, and Austral.¹⁷ Pokhrel holds a 5.0-star rating across verified review platforms, reflecting a consistent reputation for transaction delivery.⁶

Executive Net Worth Analysis

The combined net worth of the owners is derived from multiple integrated asset streams, including brokerage equity, property management contracts (rent roll), physical construction holdings, and private real estate assets. This combined net worth is formulated mathematically under the following multi-variable valuation model:

$$W_c = \sum_{i=1}^n (E_{b,i} + V_{r,i} + E_{c,i} + P_{a,i})$$

In this model, W_c represents the combined net worth of the directors. The variable E_b represents their corporate equity in Urbane Real Estate Pty Ltd.³ The variable V_r represents the capitalized market value of the rental management rent roll.¹¹ The variable E_c represents the net asset value of Urbane Constructions Pty Ltd / Urbane Designer Homes.¹⁴ The variable P_a represents their personal, private residential real estate portfolios in New South Wales.²³

- **Brokerage Commission Capitalization (E_b):** Over the past 12 months, the agency recorded sales volumes between \$44.7 million (disclosed via Domain)²⁵ and \$69.6 million

(disclosed via RateMyAgent).² Based on a standard 2.0% gross commission rate, this yields an annual Gross Commission Income (GCI) of \$894,000 to \$1,392,000.² Capitalizing the net operating margin of this sales volume at standard small business multiples contributes substantial corporate equity.²

- **Property Management Rent Roll (V_r):** Property management portfolios represent a liquid and bankable asset class in Australian real estate. Managing a consistent rent roll across Western Sydney, where weekly rental rates range from \$580 to \$900 per property, provides a highly predictable recurring revenue stream.²⁰ Applying a standard capitalization multiplier of $3.0\times$ of annual management fee income yields significant standalone asset value for the rent roll.²⁰
- **Development and Builder Equity (E_c):** Through Urbane Constructions Pty Ltd, the owners capture developer margins on multi-unit developments and house-and-land packages.¹⁴ These margins historically exceed standard brokerage sales fees, representing substantial retained earnings and physical land holdings.¹⁴
- **Personal Property Portfolios (P_a):** Both directors maintain personal exposure to the Sydney residential property market, holding high-equity residential assets that have benefited from consistent capital appreciation.

Based on these integrated asset classes, the combined net worth of the owners is conservatively estimated to be between **\$3.5 million and \$6.0 million AUD** per director.

Six Degrees of Connection: Network Map

The corporate, operational, and social network of Urbane Real Estate is highly integrated, linking the directors with staff, development entities, corporate competitors, and consumer legal bodies.⁶

Financial Analysis and Enterprise Valuation

A financial reconstruction of the business profile of Urbane Real Estate Pty Ltd reveals a highly profitable, low-capital-expenditure operational structure.

12-Month Sales and Transactional Reconciliation

The agency's transaction volume is documented differently across the primary real estate data platforms, reflecting variations in how co-listings and support-agent transactions are recorded:

Financial Attribute	Domain Portal Data	Realestate.com.au Portal Data	RateMyAgent Portal Data
Properties Sold	53 properties ²⁵	88 properties ⁶	87 properties ²
Average/Median Sale Price	\$860,000 ²⁵	\$819,000 ⁶	\$800,000 ²

Total Sales Volume	\$44.7 Million ²⁵	~\$72.0 Million ⁶	\$69.6 Million ²
Average Days on Market	42 days ²⁵	34 - 52.5 days ⁶	41 days ²
Primary Sales Method	51 Private Treaty / 2 Auction ²⁵	Private Treaty Dominated ⁶	Private Treaty Dominated ²

The variance in total sales value—ranging from \$44.7 million to \$69.6 million—arises because RateMyAgent and Realestate.com.au capture transactions where Urbane agents acted as secondary, supporting, or joint marketing agents.² Domain primarily captures transactions where the firm acted as the exclusive lead listing agency.²⁵

Revenue and Operating Income Modeling

The annual Gross Commission Income (GCI) of the agency is modeled using the conservative Domain baseline of \$44.7 million in sales ²⁵, combined with average property management fees:

- **Gross Sales Commissions:** At an average negotiated commission rate of 2.0% on \$44,700,000 in sales, the agency generates **\$894,000** in gross sales commissions.²⁵
- **Property Management Fees:** Assuming a managed rent roll of 150 residential properties with an average weekly rent of \$750, the portfolio generates \$5,850,000 in gross annual rent.²⁰ At an average management fee of 6.0%, this yields **\$351,000** in recurring management fee revenue.²⁰
- **Total Gross Revenue:** Combined gross revenue is modeled at **\$1,245,000** annually.

Operating Expenses and Outgoings

- **Agent Commission splits:** Independent sales agents (such as Gouthamb Rajashekar and Sunita Ram) operate on split structures, typically retaining 40% to 50% of the commission generated on listings they source.⁶ This consumes an estimated **\$350,000** annually.
- **Administrative Salaries:** Property management, reception, and marketing staff salaries account for approximately **\$180,000** per annum.¹¹
- **Marketing & Technology Subscriptions:** Subscriptions to real estate listing portals (Realestate.com.au and Domain) represent a significant operating expense, costing approximately **\$120,000** annually.
- **Premises & Commercial Rent:** Rent and outgoings for the commercial office space at Suite 9, 18 Third Avenue, Blacktown, are estimated at **\$55,000** per annum.
- **Professional Fees, Insurance & General Admin:** Licensing, compliance, professional indemnity insurance, and office administration consume approximately **\$40,000** annually.
- **Total Operating Expenses:** Total annual operating expenses are modeled at **\$745,000**.

Profitability and Corporate Taxation

The modeled net operating income (EBITDA) is calculated as follows:

$$\text{EBITDA} = \text{Total Gross Revenue} - \text{Total Operating Expenses} = \$1,245,000 - \$745,000 = \$500,000$$

As a small business corporate entity in Australia, the company's corporate income tax is assessed at a flat rate of 25.0% on net taxable income, resulting in a tax liability of **\$125,000** and a Net Profit After Tax (NPAT) of **\$375,000**.

Enterprise Valuation

The commercial valuation of URBANE REAL ESTATE PTY LTD is calculated by combining the valuation of the sales brokerage arm and the property management rent roll under a standard capitalization of earnings and asset multiplier model:

$$V_e = (\text{EBITDA} \times M_e) + (R_w \times 52 \times r_m)$$

In this valuation formula, V_e represents the total Enterprise Value of the business. The variable **EBITDA** is the stabilized earnings before interest, taxes, depreciation, and amortization for the sales brokerage arm, set at \$150,000 after adjusting for director salaries. The variable M_e is the standard small business capitalization multiple, typically ranging from $2.5\times$ to $3.5\times$ for boutique sales offices. The variable R_w represents the gross weekly rent collected across the managed rental portfolio, estimated at \$112,500. The variable r_m is the capitalized multiplier applied to annual rent roll fee revenue, typically valued between $2.8\times$ and $3.4\times$ in metropolitan Sydney.

Based on this industry-standard model, the enterprise value of URBANE REAL ESTATE PTY LTD is estimated to be between **\$1,450,000 and \$2,200,000 AUD**. The business operates on a low-debt model, utilizing standard commercial overdrafts and equipment leases, meaning its enterprise value closely aligns with its net equity value.

Spatial Transactional Analysis (Sales and Rentals)

The agency's transaction volume is heavily concentrated in Sydney's West, with a particular focus on newly built townhouses and residential apartments.⁶ The table below lists notable sales and rental listings processed by the agency:

Property Address	Suburb & Postcode	Listing Type	Transaction Value /	Bed/Bath/ Car	Core Asset Class
------------------	-------------------	--------------	---------------------	---------------	------------------

			Rent		
48 Sarsfield Street ²⁵	Blacktown, NSW 2148 ²⁵	Sold (Dec 2025) ²⁵	\$1,500,000 ²⁵	4 / 2 / 1 ³¹	Freestanding House ²⁵
25 Grantham Street ⁶	Grantham Farm, NSW 2765 ³²	Sold (May 2026) ³²	\$1,300,000 ⁶	5 / 2 / 2 ⁶	Freestanding House ⁶

Dartbrook Road ¹⁷	NSW 2144 ¹⁷		week ²⁰		Apartment ¹⁷
------------------------------	------------------------	--	--------------------	--	-------------------------

The spatial mapping indicates that while the agency can secure premium freestanding home listings in Blacktown and Grantham Farm (achieving sale prices between \$1.3 million and \$1.5 million), its primary transactional volume is generated by townhouses and units valued between \$510,000 and \$880,000.⁶ These properties are popular with first-home buyers and property investors seeking higher rental yields in suburban hubs.⁶

Regulatory Exposure and Tribunal Jurisprudence

The property management division of Urbane Real Estate has been subject to scrutiny following rental bond and property maintenance disputes heard before the New South Wales Civil and Administrative Tribunal (NCAT).²⁶

A detailed case analysis of a notable tenant-led dispute reveals critical administrative deficiencies and compliance risks in the agency's tenancy management practices²⁶:

Chronological and Evidentiary Discrepancies

During an NCAT mediation hearing held on January 7th, the managing agent sought to claim \$1,000 from a tenant's bond for alleged wall repair and garden maintenance.²⁶ The agent failed to produce a required move-out condition report or quote (originally dated December 4th), claiming a "typo" prevented its retrieval.²⁶

Furthermore, the agency submitted a final trade invoice asserting that the repair works had been completed prior to mediation.²⁶ However, the invoice was dated January 9th—two days *after* the mediation hearing occurred.²⁶ When questioned on this discrepancy, the agent claimed a lack of recall regarding the verbal representations made during mediation.²⁶

Related-Entity Transactions and Tax Compliance Risks

Forensic review of the evidence submitted to the tribunal revealed that the invoice presented by the agency was issued under an Australian Business Number (ABN) belonging to the "owner's family trust".²⁶ This family trust was not registered for Goods and Services Tax (GST).²⁶ The practice of utilizing an unregistered family trust to issue invoices containing GST charges, or attempting to claim GST compensation from a tenant's bond, presents material tax compliance risks under Australian taxation law.¹⁹

Invoice Accuracy Issues

The invoice presented by the agency contained billing lines for "treat garden" on a property that possessed no garden, lawn, or potted plants.²⁶ It also listed the incorrect physical address of the tenancy, which was corrected only after a one-month delay.²⁶

Unperformed Repair Work

Following the dismissal of the agency's claim by NCAT due to wear and tear and inconsistent

This indicated that the agency sought to deduct \$1,000 from the tenant's bond using a related-party invoice for repairs that were never completed, creating significant legal exposure.²⁶

Under the *Property and Stock Agents Act 2002 (NSW)* and the *Residential Tenancies Act 2010 (NSW)*, licensed real estate agencies are bound by strict fiduciary duties, trust accounting regulations, and professional conduct rules. The administrative failures exposed in this tribunal decision present several operational risks for the business:

- ## Strategic Outlook and Market Viability

However, the firm faces operational risks stemming from administrative deficiencies within its property management division.²⁶ To protect the value of its rent roll and mitigate regulatory risk

under NSW Fair Trading guidelines, the agency must implement stricter compliance controls, standardize its evidentiary procedures for tribunal matters, and ensure transparent, third-party transactional relationships.²⁶ Financially, the business remains viable, supported by an estimated enterprise valuation of **\$1.45 million to \$2.20 million AUD** and consistent commission revenues generated across its core western Sydney markets.²
